

The best thing that the investment industry can do is to encourage people to invest. RAM believes that the best way to nurture that interest is to ensure that people have a good experience when they start out.

Nothing is more discouraging and disheartening to investors then when they realize that poor quality investments were sold to them and exorbitant commissions were paid. Our commitment is to help those with less than \$100,000 of investable funds to get started in the right direction. We can help you establish an investment account at a reputable discount brokerage operation and offer you easy to follow instructions on what investments would be best for you to purchase. This superior service can be provided at a fraction of the cost charged by Bank brokerages or by brokers disguised as investment advisors. See our [Fee Schedule](#) for applicable charges.
